INTIMATE WAX CODES

You will notice that all our intimate wax treatments have a unique FAB wax code followed by a 3 digit number. This will make your booking less embarrassing when you telephone **SO FAB LONDON** whilst you are at work. All you would need to do is tell us your required FAB code & we will know which intimate wax you would like to book!

HOW ARE WAX WORKS

Perron Rigot waxes literally "shrink wrap" the hair, removing the entire hair with its roots from the follicle, leaving the skin undamaged. Since the wax sticks to the hair & not the skin, the treatment is relatively pain free! Regular waxing weakens & slows down hair regrowth & produces results that last longer.

PREPARING FOR YOUR WAX

We recommend that you exfoliate gently 3 days prior to your Perron Rigot waxing treatment & allow the hairs to grow for a minimum of 4 weeks. Your wax therapist will prepare & cleanse your skin before adding a few drops of Jasmine Oil to ensure the wax clings only to the hairs & not the skin. We **"NEVER EVER DOUBLE DIP"** this is our promise to you. We use a new, clean disposable wooden spatula for every intimate wax & once the non-strip wax is applied to the intimate area we will throw that spatula away & continue the treatment with a new spatula every time! We always provide you with complementary wipes & sanitation gel.

AFTER YOUR WAX

Keep the waxed area clean & avoid heat & friction during the next 24-48 hours. Do not apply any deodorants, body sprays, make-up, perfume or lotions to the waxed area, other than those recommended by your therapist. Starting a few days after your appointment, gently exfoliate the skin up to 3 times a week. Moisturise every day to keep the skin soft & smooth as this will help the new hairs grow through easily.

PRENATAL WAXING

Pregnancy is an amazing experience. During pregnancy, our hair tends to grow darker and coarser due to the hormonal changes our body is going through. As your tummy continues to grow, it becomes more difficult to reach certain areas. Here at **SO FAB LONDON** we have waxed pregnant women for many years, and our specialised technique is designed to help women feel clean and neat during their pregnancy, always making sure that you are comfortable and safe.

We only use Perron Rigot, a renowned French creator of high quality waxes, which is suitable for all techniques and skin types, using only the finest ingredients.
